

First Aid Planogram Refresh Document

The first Aid planograms have been refreshed for 2021. Main changes to plans are that we are partnering with Pharmacare in addition to FIXXA as our preferred First Aid suppliers

We also have introduced a new hand sanitising range called Ineos, available to order via link up & alongside Dettol will be our hand sanitising partners.

Please note there are 5 different First Aid planograms to choose from:

- First Aid 4 bay Gondola x 5 shelves (shelf widths are 700mm wide)
- First Aid 3 bay wall x 7 shelves (shelf widths are 700mm wide)
- First Aid 2 bay wall x 7 shelves (shelf widths are 700mm wide)
- First Aid 2 bay Gondola 5 shelves (shelf widths are 700mm wide)
- First Aid 1 bay Wall x 7 shelves (shelf widths are 700mm wide)

Please select the size that best fits the First Aid section and print. Planograms will be available to print from Allcare Website in the planogram folder.

If you are having difficulty deciding what size plan to select for your store due to space being completely different to above sizes, please contact Gillian Farrelly (gfarrelly@unipharm.ie) for advice.

Delisted Products

All Flemming products have been delisted from the planograms. Please sell through any current Flemming SKU's you have and replenish with the Pharmacare alternative as per your planogram. **These items are not to be put on clearance reductions.**

The below products have also been delisted from the planogram due to supplier discontinuations or long term out of stocks. Please sell through your current stocks & do not reduce

| 784690 | 745110036395 | Ineos Mist Spray 250ml |

Planogram Implementation:

How to read:

- A planogram is read from left to right, like reading a book, and from bottom shelf to top shelf.
- Bay "A" is the first bay starting from the left.
- Each shelf on the planogram is named A01, A02, A03 on so on.....then the second bay is "B" and each shelf is named as B01, B02 etc...
- Included on the planogram is each shelf name
